**Read the passage given below and answer the questions that follow :**

**Exercise-1:**

Speech is a great blessing but it can also be a great curse, for while it helps us to make our intentions and desires known to others, it can also, if we use it carelessly, make our attitude completely misunderstood. A slip of the tongue, the use of an unusual word, or of an ambiguous word, may create an enemy where we had hoped to win a friend. Again different classes of people use different words, and the ordinary speech of an educated man may create the impression to an uneducated listener that he was showing off with his skill: Unwittingly we may use a word which bears a different meaning to our listener from what it does to a man of his own class. Thus speech is not a gift to use lightly without thought, but one which demands careful handling: Only a fool would express himself alike to all kinds and conditions of people and situations.

- In what way is speech a blessing to mankind?
- Describe how words could make an enemy out of someone you would like to be a friend?
- Why is an educated man's speech considered boastful by an uneducated listener?

- How does one prove himself a fool through his use of language?

**Exercise-4:****The Autobiography of a Euro**

It took three long years for my coming into existence after the idea of a new currency was conceived. I was conceived and named on 1<sup>st</sup> Jan, 1999, when eleven European countries decided to have a new money from i.e. the Euro. My value was determined according to the conversion rate fixed by these countries in terms of their own currencies. On 1<sup>st</sup> January 2002, I was circulated as currency notes when twelve countries adopted me as their currency. Some countries opposed the idea of using me and initially refused to accept me. But now almost all the European countries have accepted me as valid currency. My brother Dollar who is in America, my brother Lira residing in Italy and my sister Sterling were quite jealous of me but soon they accepted my existence and started respecting me. "Someone must have trained him", Mom said sadly. "That means he had an owner" But still no one came. Secretly, I was glad. I wanted Goldy to be my dog. Mom even put his picture in the paper, and still no one came. "Guess he's your dog now, Shelly", she said one day, as she brought home a new chew toy for Goldy to play with.

b) What were the commands known to the dog?  
c) Why was Shelly glad?  
d) What did Mom bring home for Goldy to play with?  
e) Why did Mom put his picture in the paper?

#### Exercise-2

At the height of mum's happiness, however, I began to notice that Dad was moping around the house and looking increasingly sad and worried. It turned out that, since returning from the war, he'd been unable to find a job. At the time I was too young to understand why anyone would get sad and worried about that. Because I thought I would be as happy as a cat in a fish shop to have such a long holiday. Then, a few weeks later, I observed the same big horse

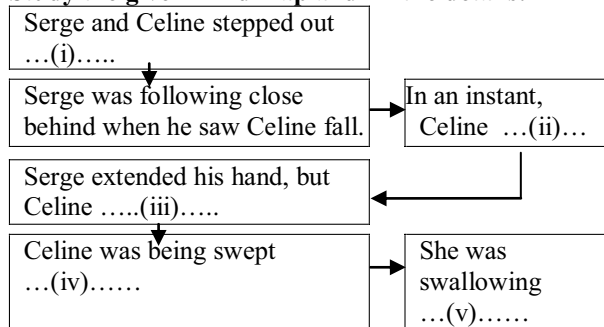

pulling a cart down our street and it clip-clopped right up into our driveway. Soon two men began to load mum's piano onto the wagon while all the neighbours gathered around to watch. Mum stayed in the kitchen sobbing. She was a proud person and couldn't bear to see her beloved piano sitting on top of the wagon. Dad sat out in the backyard next to the chicken shed, looking sadder than I had ever seen him. Suddenly it all became clear to me; no job, no money to pay back the loan, no piano.

- i) Why was dad looking sad and worried?
- ii) Why couldn't the boy understand his dad's conditions?
- iii) What had arrived at his house a few weeks later?
- iv) Why had the neighbours gathered around in the driveway?
- v) What was mum and dad's reaction to the incident?

Our blood consists of three types of blood cells: red blood cells, white blood cells and Platelets. The red blood cells are small, thin and disc shaped. They are composed of an iron containing component called haemoglobin. When blood passes through the lungs each haemoglobin molecule picks up four oxygen molecules and supplies them to the body's tissues. Red blood cells also transport the carbon dioxide from the tissues to the lungs. The lungs throw out this gas when we exhale. The white blood cells are big and few compared to red cells, numbering only one for every 700 red cells. They are the body's defenders, the soldiers that fight bacteria and other enemies. One kind, for instance, destroys dead cells.

No study of English can be completed without a reference dictionary of idioms. A very useful and easily available reference material is The Collins Dictionary of English Idioms. This dictionary contains clearly explained meanings of over three thousand common English idioms. To make the meaning even clearer and to show you how the idiom can be used, each idiom is provided with a suitable sample sentence. In this dictionary the emphasis is on 'true' idioms. These are expressions whose meanings cannot be easily worked out from the words they contain. The dictionary also provides a great many variations in the way these idioms are used. The main emphasis, however is on providing an understanding of the meaning of the idioms rather than attempting to be a complete guide to idiomatic usage

**Exercise-1: MY DOG**

Have you seen a little dog anywhere about?  
A raggy dog, a shaggy dog, who's always looking out  
For some fresh mischief which he thinks he really  
ought to do

He's very likely to do at this minute, biting  
someone's shoe.

If you see that little dog, his tail up in the air,  
A whirly tail, a curly tail, a dog who doesn't care  
For any other dog he meets, not even for himself;  
Then hide your mats, and put your meat upon the top-  
most shelf.

If you see a little dog barking at the cars,  
A raggy dog, a shaggy dog, with eyes like twinkling stars,  
Just let me know, for though he's bad, as bad as he can be,  
I wouldn't change the dog for all the treasures of the sea!
