

X- STD. – MATHEMATICS BLUEPRINT

- (i) No Change in the question paper structure**
- (ii) No change in the distribution of marks**
- (iii) No change in the chapter –wise distribution**

MODIFIED INSTRUCTIONS

SECTION-A

All the 15 questions numbered 1 to 15 are multiple choice questions, each with 4 alternatives and all are compulsory. Each question carries one mark.

SECTION – B

(1) Ten questions to be answered from the questions numbered 16 to 30. Each question carries two marks.

(2) Nine questions to be answered from the first 14 questions. Question No. 30 is compulsory and is of ‘either – or’ type.

(3) The order of the first 14 questions should be in the order of the chapters in the Text Book.

(4) Two questions from two different chapters should be framed based on the syllabus (out of Text Book problems) and that will be a part of first 14 questions (Question No. 16 to 29).

(5) The two questions under Question No.30 should be from the Text Book examples and Exercise problems of two different chapters.

SECTION – C

(1) Nine questions to be answered from the questions numbered 31 to 45. Each question carries five marks.

(2) Eight questions to be answered from the first 14 questions. Question No. 45 is compulsory and is of ‘either-or’ type.

(3) The order of the first 14 questions should be in the order of the chapters in the Text Book.

(4) Two questions from two different chapters should be framed based on the syllabus (out of Text Book problems) and that will be a part of first 14 questions (Question No. 31 to 44).

(5) The two questions under Question No.45 should be from the Text Book examples and Exercise problems of two different chapters.

SECTION – D

(1) This section contains two questions (Question No. 46 and 47), one from the Chapter 9 and the other from the Chapter 10. Each question has two alternative questions (‘either – or’ type) from the same chapter. Each question carries ten marks.

(2) Both the questions to be answered.
